

# WITH SIMSTRACKING

## UNLOCK THE FULL POTENTIAL OF YOUR COMMERCIAL FLEET WITH RELIABLE GSM TRACKING

Available on

# EASY SETUP, NO HASSLE

## HOW IT WORKS

GSM stands for Global System for Mobile Communication. With GSM, tracking a vehicle is possible simply through the mobile network. Fleet managers can monitor vehicles without needing an internet connection or extra devices, as long as the driver's mobile network is available.

## YOUR PRIVACY, OUR PRIORITY

With GSM tracking, we offer a transparent, easy-to-use solution that respects your privacy. Our consent-based approach ensures full transparency and no invasion of privacy.

No violation of privacy 

 Only works if the driver approves

Consent acknowledgement via pop-up or SMS 

 Track vehicle only when it is needed

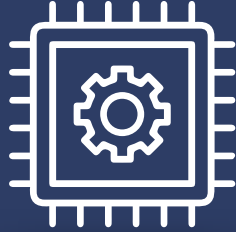

# EFFORTLESS AND AFFORDABLE TRACKING

GSM tracking is not only cost-efficient but also incredibly convenient. With minimal setup and no maintenance, it's the perfect solution for budget-conscious fleet managers.

Truly free installation

No additional hardware charges

No regular maintenance charges

No specific phone or internet required

## NO INTERNET? NO PROBLEM!

GSM tracking uses only the mobile network, so an active internet connection is not required. It works perfectly even in areas where internet access is limited or unavailable.

EFFECTIVE TRACKING EVERYWHERE

WILL ALSO WORK ON A FEATURE PHONE

ACCURATE TRACKING EVEN IN REMOTE LOCATIONS

SUPPORTS ALL MAJOR NETWORK OPERATORS

# TRACK YOUR FLEET WITH EASE USING OUR MOBILE APP

Access sophisticated tracking features anytime through our mobile app. With everything in one place, fleet managers can ensure smooth operations

- ← LIVE TRACKING OF FLEETS WITH GEOFENCING
- ← SAVE TIME WITH CUSTOMISED DASHBOARD
- ← DETAILED AND AUTOMATED REPORTS
- ← REAL-TIME NOTIFICATIONS AND ALERTS

# ADVANCED LIVE TRACKING FOR FLEET MANAGEMENT

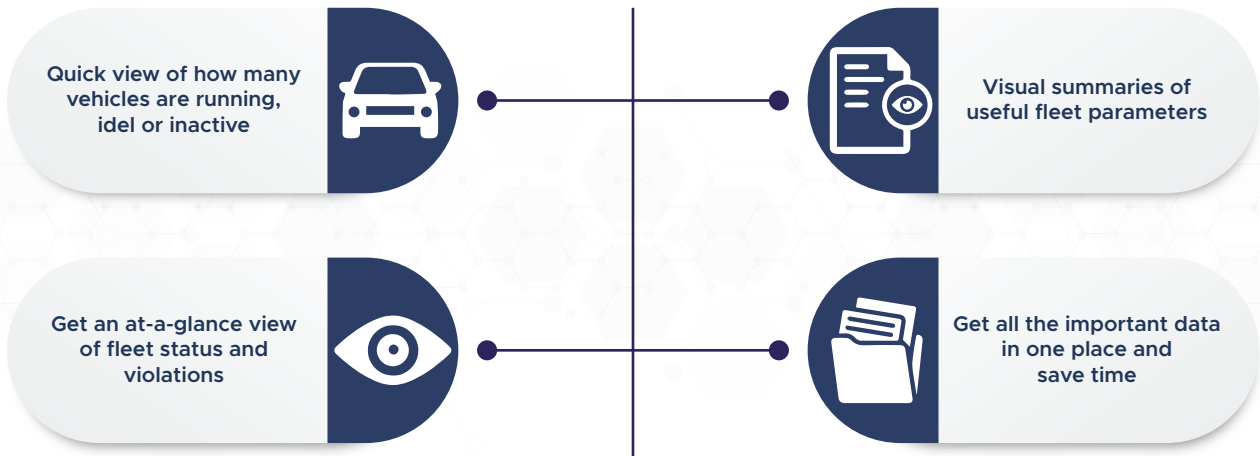

With our next-gen live tracking, fleet managers can monitor all vehicles in real-time. The app provides a detailed map view to track vehicles and assign destinations efficiently.

- START/STOP SIM TRACKING WITH A SINGLE CLICK
- REAL-TIME TRACKING OF VEHICLES ON THE MAP
- PLAYBACK DELIVERY ROUTES BASED ON DATE AND TIME

## YOUR DATA, YOUR WAY

With a completely customizable dashboard, the app enables fleet managers to swiftly access the data that matters most, making fleet tracking and management simple and efficient.

## NEVER MISS A BEAT WITH REPORTS AND ALERTS

Detailed reports and real-time alerts keep fleet managers constantly updated, making sure they're always aware of what's happening with their fleet.

- Get alerts every time vehicles reach or leave an address
- Resolve alerts instantly with SMS/Emails

## GEOFENCING FOR SMARTER FLEET MANAGEMENT

Create virtual zones on the map with a defined radius, enabling fleet managers to enforce mandatory areas or restrict access to certain locations for improved fleet control.

- Alerts for leaving and entering gefence
- Inactivity and overstay alerts
- Know when a vehicle reaches or departs an address
- Notifications for reaching and passed address
